Financial Profile

My credit score is 675. Some advantages that I had a good credit score and I could get a decent car. Some disadvantages that I had is that I couldn't get the truck that I wanted.

It will take me 5 years to pay off my truck by paying \$180/Month. It would be easier this way.

The cost of credit is \$9,507.32 which is interest

Budget

I made no adjustments to my budget because I picked an easy truck that was in my price range. The monthly payments fits perfectly because it is right under \$350
